Re: Harbor Island Superfund Site

Dear Sir or Madame:

The United States Environmental Protection Agency (EPA) has documented the release or threatened release of hazardous substances at the above referenced site. As a result, the site is now listed on the National Priorities List pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. Section 9601 et seq. The EPA is considering spending public funds to further investigate the contamination at the site and take corrective action for the control of hazardous substances at the site, unless it is determined that such action will be conducted properly by a responsible party.

Responsible parties under CERCLA include the current and past owner or operator of the site, persons who generated the substances or were involved in the transport, treatment, or disposal of them at the site. Enclosure I indicates the taxpayer name, and King County Tax Account Number for the properties owned on Harbor Island by you or your company, according to the King County Tax Records. Under CERCLA and other laws, Potentially Responsible Parties (PRPs) may be liable for all monies including interest thereon expended by the government to take necessary corrective action at the site including investigation, planning, and cleanup of the site. Note that use of the word 'site' in this letter refers to the term 'facility' as broadly defined in CERCLA.

Based on EPA's preliminary findings, persons and companies to receive this letter have been identified as potentially responsible parties. Inclusion on this list indicates that you or your company may be a responsible party. This list does not constitute a final determination concerning the liability of any party for the hazard or contamination at the site in question. The list of PRPs is attached for your information (see Enclosure 2), and will continue to be up-dated as EPA obtains new information.

EPA and the State Department of Ecology (Ecology) encourage PRPs to perform or participate in the investigation and/or clean up of the site. The PRPs may participate individually or as a group. In the event that PRPs elect not to participate, each PRP may be liable for site investigation, site cleanup, and for damages to natural resources. These liabilities are joint, strict, and several for all PRPs.

At this time, EPA is seeking to obtain certain information from you. Under the provisions of Section 104 of CERCLA, 42 U.S.C. 9604, and Section 3007 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6927, as amended by the Solid Waste Disposal Act Amendments of 1980, the Administrator of the Environmental Protection Agency has the authority to require any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled hazardous wastes and substances to furnish information related to such wastes and substances. Pursuant to these statutory provisions, you are hereby requested to respond to the following items:

- Provide a list including names, addresses, and dates of lease agreement of all current lessees of the property you/your company owns on Harbor Island.
- 2. What are the generic names and chemical character of the hazardous substances, as defined under Section 101(14) of CERCLA, that you generate, store, treat, transport, dispose or otherwise handle or have handled at the site?
- 3. For each hazardous substance identified above, please describe how the substance was handled, when, and the total quantity in weight or volume (estimate if quantity not available).
- 4. Where was this material stored, and where was it disposed of?
- 5. What arrangements (if any) were made to transport the hazardous substances away from the site? Who was the transporter of the hazardous substances, and what is his current/previous address?
- 6. Provide all information you have regarding spills of hazardous substances on or around the site. This should include the generic name and chemical constituents of the material(s) spilled, the quantity of material spilled, clean-up measures taken, the cause for the spill and any other related information.
- 7. Describe all environmental investigations that have taken place on or around your property/facility. This includes investigations of the physical and chemical characteristics of soil, surface water, sediments, air, and groundwater. This also includes historical evaluations of potential/known contamination. Provide all

relevant information including, but not limited to study design, workplans, quality assurance procedures, sampling procedures, well logs, study results, and data analyses. Raw data need not be provided at this time; data summaries will suffice.

- 8. Provide all information on all wells on site including the number, associated well logs, date of installation, purpose of installation, and whether the well(s) are being used currently and for what purpose.
- 9. Provide a list including names, addresses, and dates of lease agreements of all current and past lessors of the property you/your company owns on Harbor Island. Indicate the exact location of the leased property. Also provide any information you may have regarding the type of activities that lessor carried out on site, particularly as the information you have is relevant to the above questions.
- 10. Provide copies of all insurance policies that may provide liability coverage for damages resulting from releases of hazardous substances and/or hazardous wastes. This includes policies that are in effect as well as those effective when hazardous substances were released in the past.

Your written answer to Question #1 must be provided to EPA within ten (10) calendar days of your receipt of this letter. Your written answers to the remaining questions must be sent to EPA within thirty (30) calendar days of your receipt of this letter.

Under Section 3008 of RCRA, 42 U.S.C. 6928, failure to comply with this request may result in an order requiring compliance or a civil action for appropriate relief. Section 3008 of RCRA also provides for civil penalties. Pursuant to Section 103 of CERCLA, it is unlawful for any person knowingly to destroy, mutilate, erase, dispose of, conceal, or otherwise render unavailable or unreadable, or falsify any of the above records.

EPA recognizes that this information request is broad in scope. If the information you possess is voluminous, you may respond within the 30 day period as to the availability of all related records, and provide a written description of the type of information available. Specifically, describe the types of records that were maintained by you or your company with regard to the above including the date of the records, the author of the records, the current location of the records, and their current custodian. EPA also requests that arrangements be made to allow designated EPA employees, Department of Ecology employees, and their contractors to review all such documents.

EPA regulations governing confidentiality of business information are set forth in Part 2, Subpart B of Title 40 of the Code of Federal Regulations Federal Register 36902-36924 (September 1, 1976), as amended by 43 FR 3997 (September 8, 1978), 44 FR 17673 (March 23, 1979), and 43 FR 11270 (March 17, 1983). For any portion of the information submitted which is entitled to confidential treatment, please assert a confidentiality claim in accordance with 40 CFR §2.203(b). If EPA determines that the information so designated meets the criteria set forth in 40 CFR §2.200, the information will be disclosed only to the extent, and by means of, the procedures specified in 40 CFR Part 2, Subpart B. EPA will construe the failure to furnish a confidentiality claim with your response to this letter as a waiver of that claim, and information may be made available to the public by EPA without further notice.

Finally, you should be aware that the Washington Department of Ecology (Ecology) is working under a Cooperative Agreement with EPA to address the Harbor Island Superfund site. State law requires that Ecology send letters similar to this one to each PRP notifying each of potential liability. You are likely to receive such a letter within a few weeks.

Please respond to EPA within the time frame indicated above. Your written response should be sent to Lori Cohen, U.S. Environmental Protection Agency, Superfund Branch, 1200 Sixth Avenue, M/S 525, Seattle, Washington 98101. Please direct EPA policy and technical questions to Lori Cohen at (206) 442-2712, and legal questions to Deborah Gates at (206) 442-1218.

I hope you will give this matter your immediate attention.

Sincerely,

Charles E. Findley, Director

Hazardous Waste Division
